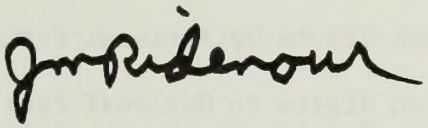
## Foreword

For 73 years it has been the honor and distinction of the men and women of the National Park Service to preserve the units of the national park system for use by people of all kinds.

They come from Albuquerque and Aberdeen, Little Rock and Lyon, Winston-Salem and Wakayama. They come out of curiosity, for adventure and diversion, to experience and remember. They are greeted, guided, informed, inspired, accommodated, and bid farewell. They are what the national park system is all about. They are the people of the United States and their guests from around the world.

This is the account of their activity in 1989 and a small indicator of the joy, wonder, satisfaction, and commonwealth that has resulted from their travels and visits.



James M. Ridenour
Director
National Park Service

# INTRODUCTION

The National Park Service (NPS) Statistical Office acknowledges the conscientious efforts of the field staff of the many areas of the National Park System. Without the effort of the park staff to count, record, and report the data summarized here, a statistical report of this quality would not be possible. These public use data are collected and analyzed monthly. A program of park counting procedure audits is conducted to ensure consistency and accuracy of data.

The gathering and publication of these statistics is in accordance with Public Law 88-29, "An Act to Promote the Coordination and Development of Effective Programs Relating to Outdoor Recreation" and related legislation. Definitions of terms in use here are given at the end of this report. The definitions are those initially outlined by "A Uniform Method for Measuring and Reporting Recreation Use on the Public Lands and Waters of the United States", unpublished guideline of the Recreation Advisory Council Study Committee Number Two, April, 1965.

Footnotes are provided at the end of this report. The footnotes describe conditions at parks which may require important adjustments for certain applications of these data.

National Park Service professionals are rededicated to their fundamental mission as archivists of the Nation's history, providers of educational and leisure time opportunities, and protectors of our vast but limited resources for future generations.

Timely, reliable, and useful information is fundamental to effective management and planning of the National Park System. This annual report is a general summary of visitation records for the year. Comments or requests for additional statistical information should be addressed to:

Statistical Office, WASO-TNT

## ADJUSTED DATA

Adjustments were made to data used for multi-year graphs (Figures 1-4) to account for changes in counting procedures at thirteen NPS areas. Net decreases in system totals from 1987 through 1989 were caused by these counting procedure changes. To offset this, data in multi-year graphs were truncated for earlier years at the volume levels of the first year of corrected count for the thirteen areas.

| PARK | VISITS HELD AT | FOR THE YEARS |
|---|---|---|
| Blue Ridge Parkway | 16,176,170 | 1985 - 1988 |
| Catoctin Mountain Park | 341,100 | 1984 - 1987 |
| Chesapeake and Ohio Canal NHP | 1,970,287 | 1980 - 1987 |
| Chickamauga and Chattanooga NMP | 877,100 | 1982 - 1987 |
| Gateway NRA | 6,748,181 | 1980 - 1987 |
| George Washington Memorial Parkway | 3,048,161 | 1974 - 1988 |
| Great Smoky Mountains NP | 8,333,553 | 1983 - 1988 |
| Gulf Islands NS | 4,458,368 | 1984 - 1988 |
| Lincoln Memorial | 1,462,609 | 1973 - 1988 |
| Natchez Trace Parkway | 10,837,880 | 1981 - 1988 |
| Ocmulgee NM | 118,300 | 1984 - 1987 |
| Thomas Jefferson Memorial | 1,329,500 | 1983 - 1987 |
| Vietnam Veterans Memorial | 2,594,694 | 1985 - 1988 |

This change was only made for recreation visits in multi-year graphs. No tabular data in this report have been altered in this way.

Although counting procedures are regularly updated throughout the system, 1988 and 1989 updating included some of our most visited areas. True visitation levels for the thirteen affected parks during the adjusted years will never be known. This expedient correction procedure assumes former visitation volumes were not greater than during the first year corrected procedures were applied. The Statistical Office has begun analyzing past data to extract useful trend information which will be made available in future publications.

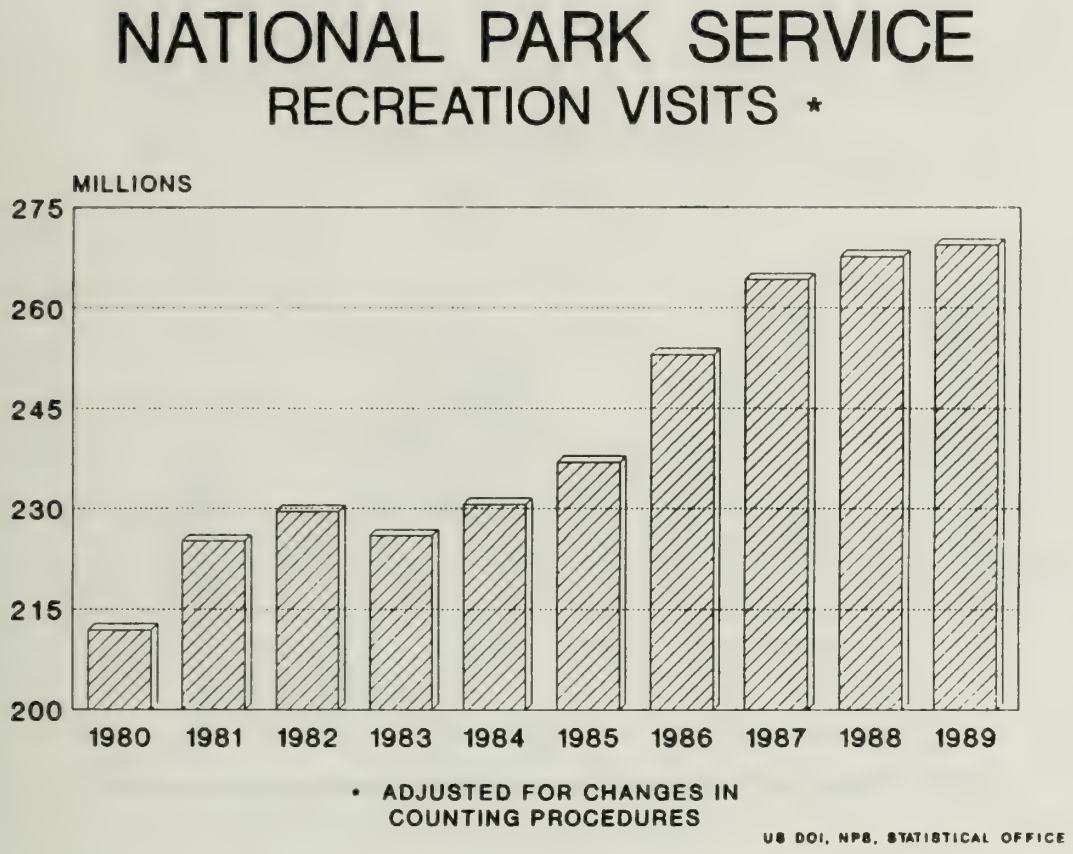

Figure 1.

RECREATION VISITS, 1980-89

Public use data from areas administered by the National Park Service lend themselves to a variety of interpretations. These data are indicative of vacation travel to parks; many areas are indicative of the volume of participation in outdoor recreation; other areas reflect interest in archeology, history, and various great national events. They are reflective of outside conditions: recession, travel costs, fuel availability, and the effects of natural forces. This chart shows two periods of strong growth (1980-82 and 1983-88) and two periods of decline or slight growth (1982-83 and 1988-89) during the eighties.

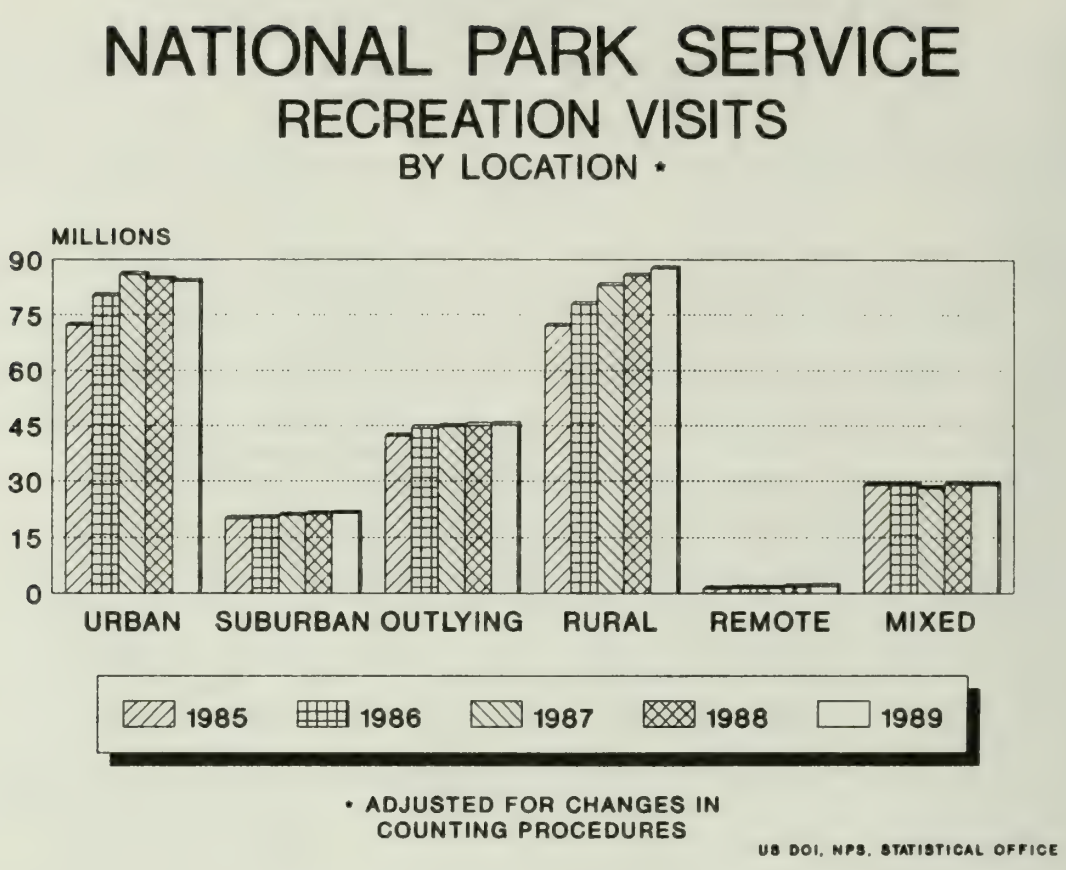

FIGURE 2.

RECREATION VISITS BY LOCATION, 1985-89

Figure 2 shows recreation visit levels for six categories of parks by their proximity to population centers. A number of "trends" are suggested by the data: relatively flat recreational visit levels for all categories except the Urban and Rural parks: Urban parks' Recreation Visits peaked in the 1987 period and decreased slightly thereafter: steady and significant growth in the Recreation Visits at Rural Parks, with total levels exceeding those of the Urban parks starting in 1988.

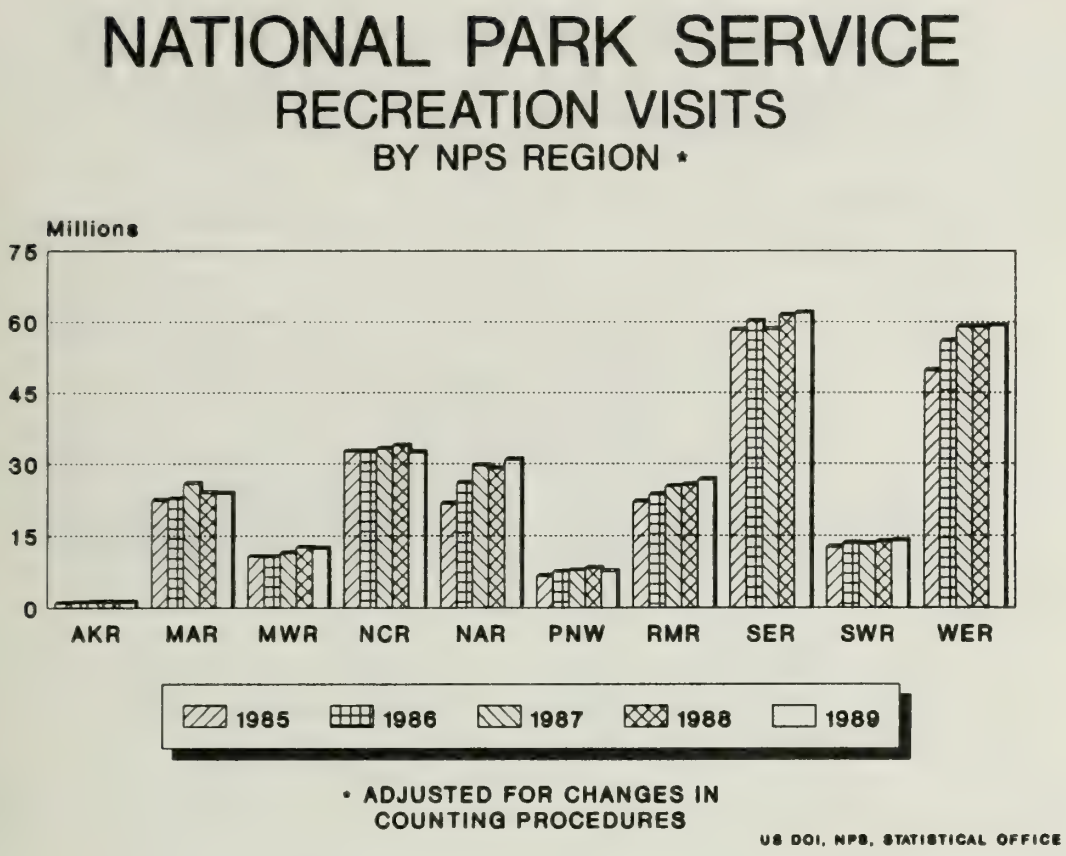

FIGURE 3.

## RECREATION VISITS BY NATIONAL PARK SERVICE REGION, 1985-89

Figure 3 shows levels of Recreational Visits by region (Alaska, Mid-Atlantic, Midwest, National Capital, North Atlantic, Pacific Northwest, Rocky Mountain, Southeast, Southwest, Western), for the five-year period from 1985-89. The North Atlantic Region experienced the largest five-year percentage growth in visitation (+42%), followed by the Rocky Mountain Region (+21%), and the Alaska and Western Regions (+19%). All other regions experienced only modest changes in visitation over the period. The Southeast Region remained the most heavily visited area, although only slightly ahead of the Western Region, which had a very significant increase of nearly ten million recreation visits during the period.

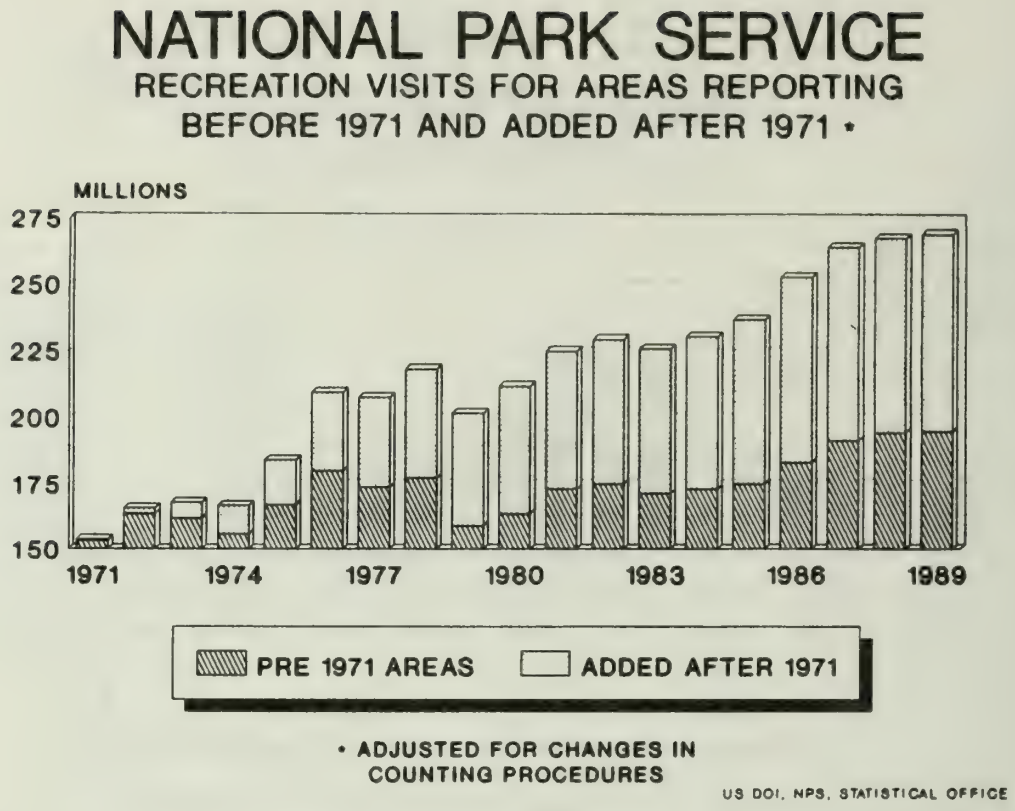

FIGURE 4.

**RECREATION VISITS FOR AREAS REPORTING BEFORE 1971 AND ADDED AFTER 1971**

Figure 4 shows a number of trends: a strong overall growth in recreational visits over both the decade of the 1970's (+30%) and the decade of the 1980's (+35%); the very important contribution to visitation associated with the new parks that entered the system after 1971; the impacts on visitation caused by events such as the 1973-74 oil embargo, the 1976 Bicentennial, the 1978-79 gasoline shortage, and the sluggish economy of the 1981-83 period.

FIGURE 5.

**RECREATION VISITS, SEASONALITY CHANGES,**

**COMPARING 1977-79 VERSUS 1987-89**

Figure 5 shows a change in visitor use patterns, with a drift of visitation off the peak and onto the shoulder and low seasons over the last decade. This shift suggests a growing need for visitor services during the non-peak seasons, and also likely implies a shift in family (peak season) versus non-family (other seasons) visitor mix.

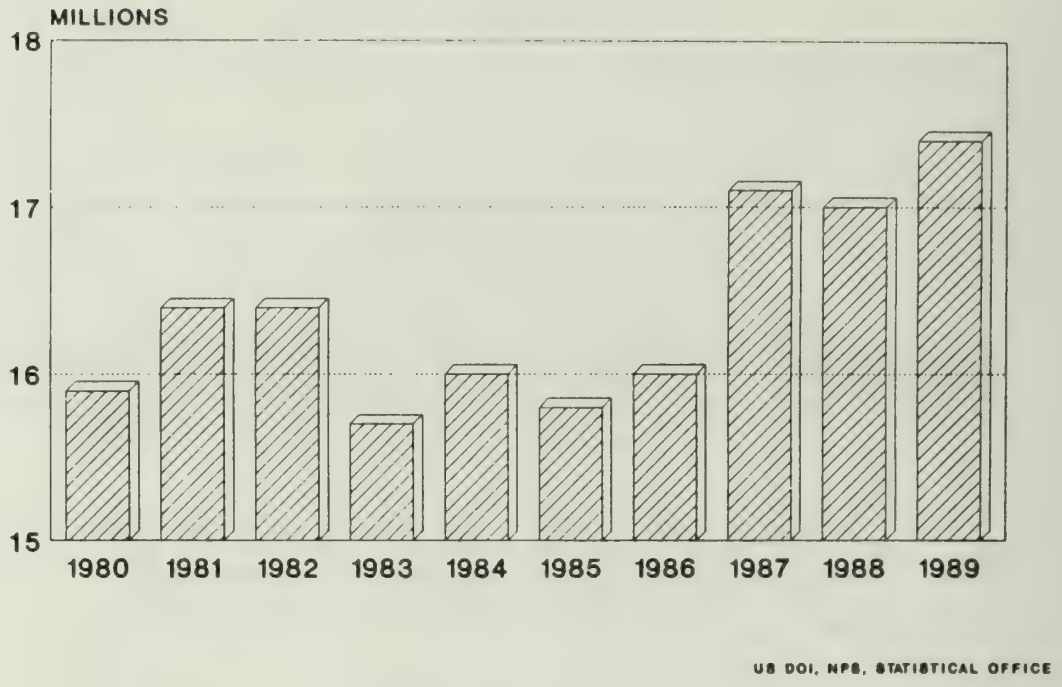

FIGURE 6.

**RECREATION OVERNIGHT STAYS, 1980-89**

Recreation Overnight Stays have fluctuated more than Recreation Visits (Figure 1) during the eighties. Many factors could explain this including the smaller number of areas reporting overnight use, varying overnight facility capacity, and differences in their location relative to all areas reporting public use. This chart shows an overall increase near the end of the decade.

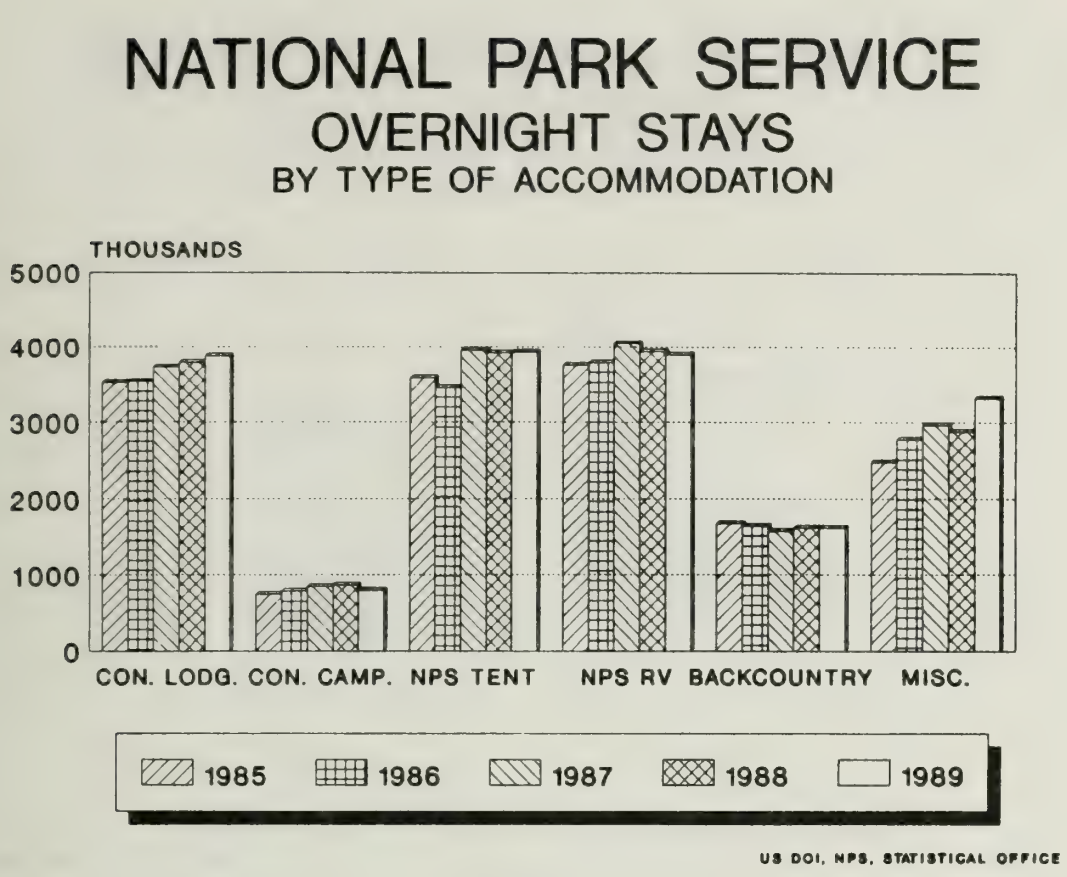

FIGURE 7.

RECREATION OVERNIGHT STAYS BY TYPE OF ACCOMMODATION, 1985-89

Figure 7 shows 1985-89 overnight stays for Concessioner Lodging and Campgrounds, National Park Service Tent Camping and Recreational Vehicle Camping, Backcountry, and Miscellaneous.

Overnight stay data represents visitors with distinct vacation and recreational styles. While Backcountry use did decline during the 1983-85 period, it has remained steady since then. NPS Tent and RV use has fluctuated only slightly even though rural area park volume has been rising over the last four years. The increase in Miscellaneous Overnight Stays includes nights aboard water craft at undesignated areas and organized group camping.

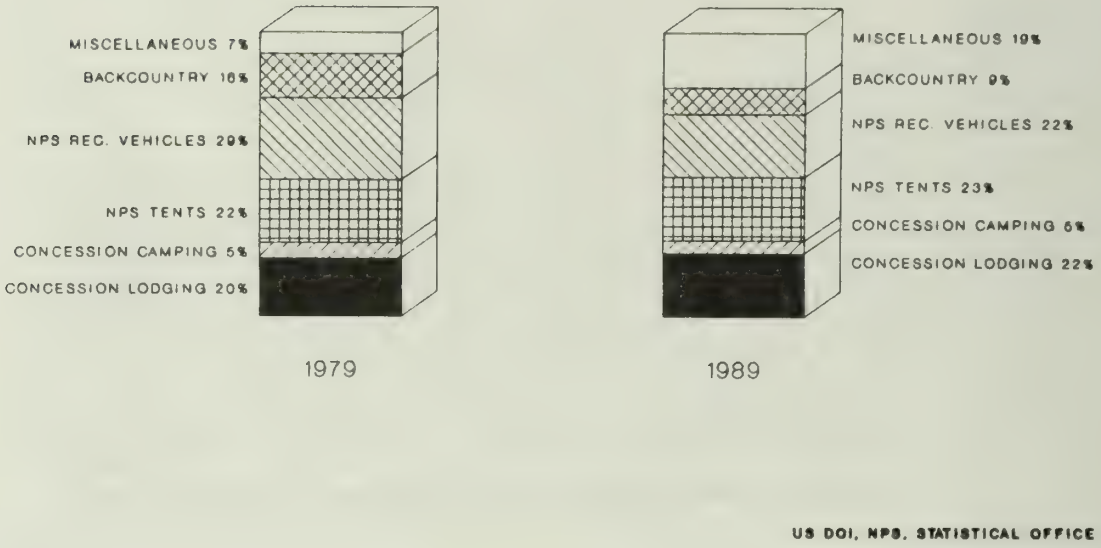

FIGURE 8.

**RECREATION OVERNIGHT STAYS BY TYPE OF ACCOMMODATION, 1979 AND 1989**

Figure 8 shows the distribution of overnight stays for six different types of visitor accommodations on a percentage basis for two specific years, 1979 versus 1989. Significant percentage shifts were recorded for three categories: Miscellaneous (+12%); Backcountry (-7%); Recreation Vehicles (-7%). Percentage of overnight use associated with NPS Tents, Concessioner Campgrounds, Concessioner Lodging were basically unchanged.

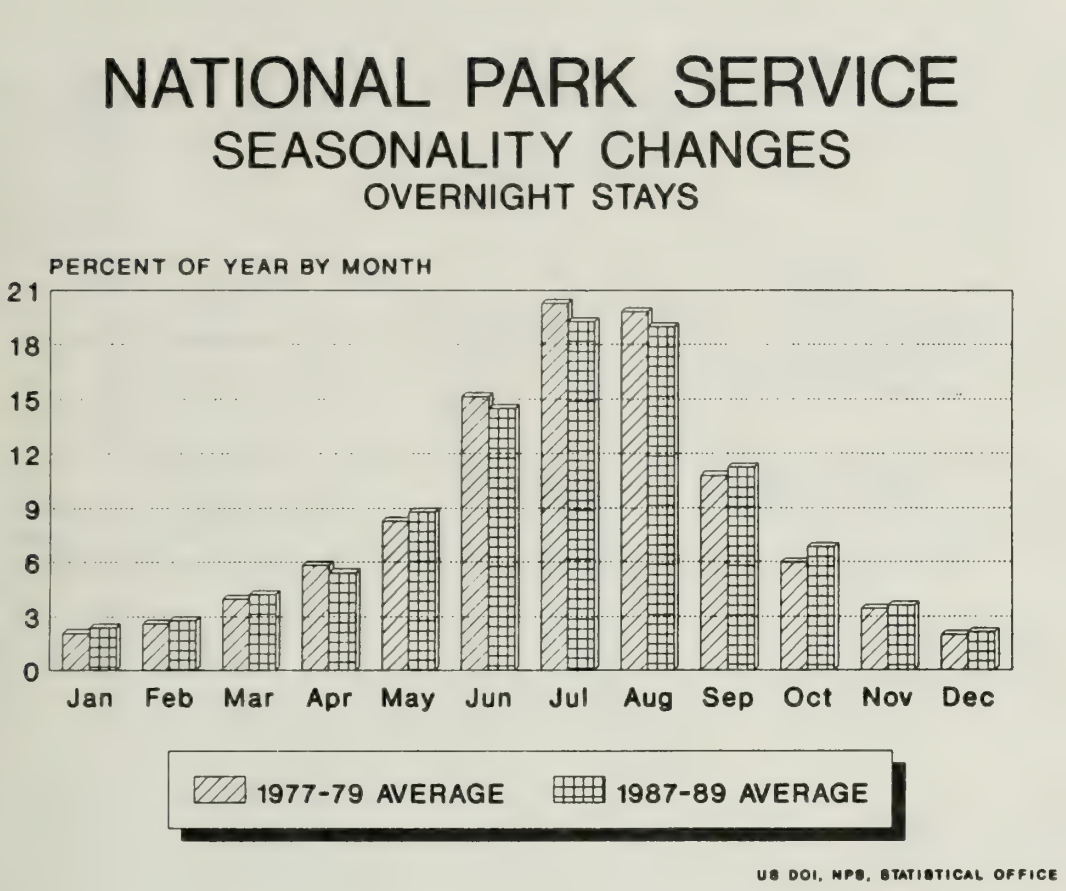

FIGURE 9.

RECREATION OVERNIGHT STAYS, SEASONALITY CHANGES,

COMPARING 1977-79 VERSUS 1987-89

Figure 9 shows the same general trends as did the data for Recreation Visits (Figure 5), again with a shift in number of overnight stays from the peak season and to the shoulder and low seasons.

TABLE 1. RECREATION VISITS, ACREAGES, AREAS ADMINISTERED, AND AREAS REPORTING RECREATION VISITS IN THE NATIONAL PARK SYSTEM BY CLASSIFICATION, 1989.

## 1989 FOOTNOTES

1. Redesignated in 1989: Boston African American NHS from affiliated to administered.

2. The following areas are either reporting for the first time or reporting separately in 1989: Aniakchak NM and NPRES, Big Cypress NPRES, Boston African American NHS, San Francisco Maritime NHP (previously a unit of Golden Gate NRA), Steamtown NHS.

3. Data for North Cascades NP, Ross Lake NRA, and Lake Chelan NRA are combined as North Cascades NP; no breakdown is available. Data for Constitution Gardens, National Capital Parks - East, National Capital Parks - Central, and President's Park are combined as National Capital Parks; breakdown is available.

4. Due to changes in 1989 counting procedures in one or more types of data reported, the figures for the following require special adjustments to be comparable with earlier data: Assateague Island NS, Blue Ridge PKWY, Cape Lookout NS, Capulin Volcanos NM, Curecanti NRA, Fort Clatsop NM, Frederick Law Olmstead NHS, Gateway NRA, George Washington MEM PKWY, Glen Canyon NRA, Golden Gate NRA, Great Smoky Mountains NP, Greenbelt Park, Gulf Island NS, Herbert Hoover NMEM, Hopewell Furnace NHS, Johnstown Flood NMEM, Lincoln Home NHS, Lyndon Baines Johnson MEM Grove ot Potomac, Mesa Verde NP, Muir Woods NM, Nez Perce NHP, Oregon Caves NM, Piscataway Park, Rock Creek Park, Santa Monica Mountains NP, Whiskeytown-Shasta-Trinity NRA, Womens Rights NHP.

5. Due to the opening of additional areas, programs, or facilities, the following areas may require special adjustments to be comparable with earlier data: Cape Lookout NS, Cumberland Gap NHP, Golden Gate NRA, Johnstown Flood NMEM.

6. Due to partial or temporary closing the figures for the following areas may require special adjustments to be comparable with earlier data: Springfield Armory NHS.

7. Due to unusual events (anniversaries, civic fairs, significant natural disasters, storm damage, etc.) the following may require special adjustments to be comparable with earlier data: Fort Sumter NM, Santa Monica Mountains NP, Virgin Islands NP, Whiskeytown-Shasta-Trinity NRA, Women's Rights NHP.

8. New areas named but not reporting: Ulysses S. Grant NHS.

## DEFINITIONS

AFFILIATED AREAS. Areas administrated in connection with the National Park Service (NPS) which utilize NPS assistance but which are neither federally owned nor directly administered by the NPS.

BACKCOUNTRY. One or more primitive or wilderness areas in a park reached primarily by hiking, boating, or horseback.

CAMPGROUND. An area of land designated and developed for use as a camp.

CLASSIFICATION. Areas administered by the NPS are known by several different designated names. A detailed description of each classification may be found in the publication, The National Parks: Index 1987.

CONCESSIONER. Private company or individual granted the privilege of providing facilities and services considered necessary by the NPS for accommodating visitors.

CONCESSIONER CAMPGROUND. An element of a concessioner operation involving services for overnight camping, land for camping, or equipment for camping.

CONCESSIONER LODGING. Overnight facilities such as hotels, motels, cabins, cottages, trailer villages, and trailer rental.

MISCELLANEOUS OVERNIGHT STAY. Any overnight stay not otherwise defined (sleeping aboard boats, camping in organized groups, and/or any other overnight stays not included in other categories of overnight stays, except inholders which are nonreportable).

MIXED AREA PARK: NPS areas are categorized by their proximity to population centers in the following manner:

Mixed Area Park - A park located in a mixture of Outlying Area, Rural Area, Suburban Area, and Urban Area.

Outlying Area Park - A park located in a Metropolitan Statistical Area (MSA) of less than one million population.

Remote Area Park - A park located outside of any MSA and requiring special travel arrangements to reach.

Rural Area Park - A park located outside of any MSA and accessible by paved highway, scheduled air or marine transportation service.

Suburban Area Park - A park located outside the central city but still within the MSA of greater than one million population.

Urban Area Park - A park located within the central city of a MSA.

NATIONAL PARK SERVICE (NPS). A Department of the Interior (DOI) agency which administers approximately two dozen types of federal land, nationally significant for their scenic, natural, scientific, historical, or archeological interest (see CLASSIFICATION). The agency was established as a Bureau of the DOI by Act of Congress, August 25, 1916. The NPS does not administer National Forests (United States Department of Agriculture/Forest Service), Wildlife Refuges (United States Department of Interior/Fish and Wildlife Service), or a variety of other lands available for public use.

NEGLIGIBLE TRANSIT. A brief, incidental entry into a park by passing traffic (vehicular or pedestrian) using NPS administered grounds, roads, or walkways. Such use is nonreportable (see NONRECREATION VISITS).

NONRECREATION VISITS. Reportable nonrecreation visits include visits by

(a) persons going to and from inholdings;
(b) through traffic;
(c) trades-people with business in the park;
(d) government personnel (other than Park Service employees) with business in the park.

NONREPORTABLE VISITS. The entry into the park by NPS employees, their families, concessioner employees, members of cooperating associations, and NPS contractors. (See RECREATION VISITS.)

OUTLYING AREA PARK. See definition of Mixed Area Park.

OVERNIGHT STAY. One night within a park by a visitor.

RECREATION VEHICLE. Any enclosed vehicle used for camping which is more elaborate than a simple truck or car, such as pickup truck with camper body, pop-up tent trailer, travel trailer, bus, motor coach, mobile home, etc.

RECREATION VISITS. Entries of persons onto lands or waters administered by the NPS for recreation purposes (see TOTAL VISITS and NONRECREATION VISITS). Visits by service personnel as broadly defined below and by others as a necessary part of travel incidental to their employment (commuters) or residence (inholders) are not reportable as recreation visits. (See NONRECREATION VISITS.)

REGION. A National Park Service administrative subdivision. The ten National Park Service Regions include the following states:

Alaska (AKR) - Alaska
Mid-Atlantic (MAR) - Delaware, part of Maryland, Pennsylvania, part of Virginia, West Virginia
Midwest (MWR) - Iowa, Illinois, Indiana, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio, Wisconsin
National Capital (NCR) - Washington, DC, part of Maryland, part of Virginia
North Atlantic (NAR) - Connecticut, Massachusetts, Maine, New Hanpshire, New Jersey, New York, Rhode Island, Vermont
Pacific Northwest (PNR) - Idaho, Oregon, Washington
Rocky Mountain (RMR) - part of Arizona, Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming
Southeast (SER) - Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, Virgin Island
Southwest (SWR) - Arkansas, part of Arizona, Louisiana, New Mexico, Oklahoma, Texas
Western (WER) - part of Arizona, California, Guam, Hawaii, Nevada

REMOTE AREA PARK. See definition of Mixed Area Park.

RURAL AREA PARK. See definition of Mixed Area Park.

SERVICE PERSONNEL. (a) Employees of the NPS who are assigned to the park or are visiting the park in connection with their duty assignments; (b) NPS contractors, concessionaires, cooperating associations; (c) the temporary or permanent members in the households of NPS employees resident in the park. All such "service personnel" are not reportable as public use.

SUBURBAN AREA PARK. See definition of Mixed Area Park.

URBAN AREA PARK. See definition of Mixed Area Park.

VISIT. The entry of any person, except NPS personnel, onto lands or waters administered by the National Park Service. Visits may occur as recreation visits or nonrecreation visits. Same day reentries, negligible transits, and entries to detached portions of the same park on the same day are not counted as additional visits. Such adjustments are made insofar as practicable for noncontiguous parts of the same park. However, visits are reported separately for two contiguous parks.

VISITOR DAY. Twelve visitor hours in a park.

VISITOR HOUR. The presence of one or more persons, excluding NPS personnel, in a park for continuous, intermittent, or simultaneous periods of time aggregating one hour (e.g., one person for one hour, two persons for one-half hour).
